ABOUT THE STATE.

Items of Interest Gleaned From Our Exchanges.

Mrs. D. O. Bullock is caring for Mrs. Edwin Sibley of West Milton who is very ill. Mrs. Sibley gave birth to girl triplets January 18. All were born dead.

Articles of association have been filed in the Burlington city clerk's office by the Gilbert-Rust Optical Co., dealers in and manufacturers of lenses, spectacles, eyeglasses, etc. The capital stock is \$100,000, divided into shares of \$100 each.

President Roosevelt received calls Saturday from the four presidential electors from Vermont, who were introduced by Senator Redfield Proctor. The electors are Walter H. Berry, of Bennington, Edward B. Plinn, of Springfield, Frank A. Bond, of Middlebury, Arthur F. Stone, of St. Johnsbury.

According to a late report, Principal Thomas of the Burlington high school is preparing to leave New Haven, Conn., where he has been since he left this city, for an ocean trip to the Bermuda Islands. His health is reported improved and it is hoped that the invigorating sea air will so better his condition that he may soon be back in Burlington.

The work of rebuilding the mixing building of the Robin Hood Powder Co., at Swanton, recently destroyed by explosion and fire, began yesterday under the direction of E. N. Prouty. The new building will be 18x28 feet. At the plant of the powder concern there are 12 different buildings, two of them being magazines which are in isolated parts of the grounds.

The state board of railroad commissioners will hold a hearing at Rutland Tuesday in relation to the location and operation of a warning signal at the crossing of the Clarendon & Pittsford railroad and Rutland street railway. A meeting of the board will be held at Rutland Wednesday, to investigate the fatal accident to the Niles boy, who was killed there last fall by being run over by a Delaware & Hudson train, while riding his bicycle over a public crossing.

which were closed Wednesday, Thursday and Friday of last week, were reopened this morning, with the single exception of the Adams school, which will remain closed another week. Last Monday, owing to the appearance of diphtheria among the pupils, the board of school commissioners, acting upon the advice of Health Officer Clark, closed the Adams school as a precautionary measure against the spreading of the disease, and it was thought best also to close all the schools, with the exception of the high school.

The Brattleboro high school will attempt to arrange a series of games with St. Johnsbury academy to determine which has the better right to claim the school championship of the state, and if the honor should fall to the Brattleboro five a challenge would in all probability be sent to Edmunds high school of Burlington, which won the last year's championship. As there is small likelihood of a game between Brattleboro and Company D this year a school championship series ought to arouse no little enthusiasm.

A natural bowlder, weighing fully three tons, to mark the grave of the late Newton I. Hawley has been placed on its foundation in Morningside cemetery at Brattleboro. The stone has one flat side on which is a bronze tablet from the Ames Company of Chicago, Mass., bearing Mr. Hawley's name in a fac simile of his writing and the place and date of death in Gothic lettering. The marker is left in its natural state just as it was taken from the Wilson farm in Dunsmuir. Not long before his death Mr. Hawley selected the bowlder as the marker for the grave of a close friend.

The 10:25 o'clock train for the north over the Rutland railroad was delayed 39 minutes Saturday morning, owing to the track at Ripley's crossing being blocked by a huge block of marble weighing several tons, which fell from the Delaware & Hudson switching train, as it was returning from Center Rutland, about 30 minutes before the Rutland train was due. The stone fell from the Delaware & Hudson train on to the Rutland track, and the switch engine came to Rutland city and notified the city officials. The steam train and crew were immediately sent out, and easily removed the rock. The Rutland train was delayed just long enough to have to wait for the south-bound train, which was somewhat late, before it was allowed to leave Rutland.

At H. F. Sargent's sale of a portion of his household goods in Newfane, in the fall, a viol which he bought at S. P. Miller's auction several years ago sold for a trifle, and a local buyer transferred it for \$2 to Mr. Davis, a summer guest from New York, who has written to a friend here that he sold the instrument for \$250. It turned out to be of especially good tone. It was called a tenor violin and was owned by Mr. Miller for many years, and probably was used in the church choir here 50 to 70 years ago, when Mr. Burditt played the bass viol. First these instruments were used in the Union church, occupied by Congregationalists, Methodists and Universalists. Later, in "Priest Warren's" day, the church was used almost wholly by the latter denomination, as a Congregational church was built here in 1839.

A Grim Tragedy

is daily enacted, in thousands of homes, as death claims in each one, another victim of consumption or pneumonia. But when coughs and colds are properly treated the tragedy is averted. F. C. Huntley of Oakland, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Colds, which cured her, and today she is all well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c and \$1.00 by Rickett & Wells, druggists. Trial bottle free.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleaning the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it cures that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

DAMES AND DAUGHTERS.

Mrs. Mary A. Livermore celebrated her eighty-fifth birthday recently and is said to be in excellent health.

Tiring of the emptiness of society life, Miss Marianne Wood, daughter of a prominent New York citizen, has taken a situation as housemaid.

While not definitely decided, it is highly probable that Miss Alice Roosevelt will be presented at the British court this winter, with Whitelaw Reid as her sponsor.

Mrs. Fairbanks, wife of the vice president elect, is described as a very winning, approachable woman. For four years she has been president general of the Daughters of the American Revolution.

Mrs. Cornelius Vanderbilt has started the fashion of having an opera cloak to match each gown. Every time she appeared at the opera in New York she wore a different costume, including the outer cloak.

Mme. Makaroff, widow of the Russian vice admiral who went down with the battleship Petropavlovsk, is regarded as among the most beautiful and talented women in all the czar's empire. For years her receptions and dinner parties were the most brilliant in St. Petersburg.

Miss Louise Mary Driver, mayoress of Chatham, England, has completed her first year of the office. She is mayoress by virtue of the fact that her father is mayor and her mother is a maid. She is not four years old. The other day as mayoress she gave a fete to 2,000 school infants.

Lady Bristol has a most wonderful collection of old fans. Many of these she has copied on chicken skin and other fine materials, and her work can hardly be distinguished from the originals. She is also very clever in reproducing wild flowers and devotes a great deal of time to this artistic hobby.

Too Risky.

Wouldn't Keep Hens Without It.

Every poultry keeper has his own ideas as to what is the best food for his fowls. All agree, however, that the food that will make their hens lay in cold weather is the most profitable. Mrs. E. H. Brown of Abbott, Me., expresses the ideas of many poultry keepers in the following letter: "I am sure I would not think of keeping hens if I could not get 'Page's' Perfect Poultry Food for them."
